Sew me up Puppy

This kit contains all you need to make a cute puppy for you to love and keep. Your puppy body has been pre-made for you however you will need to stuff him and sew him up. Follow these easy steps.

1 Remove the stuffing from its packet and pull it into small balls.

2 Now open up the slot in the back of your puppy's body.

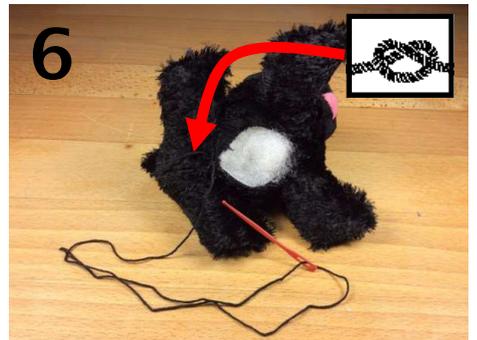

3 Start to push the stuffing into the body through the slot, fill the legs first.

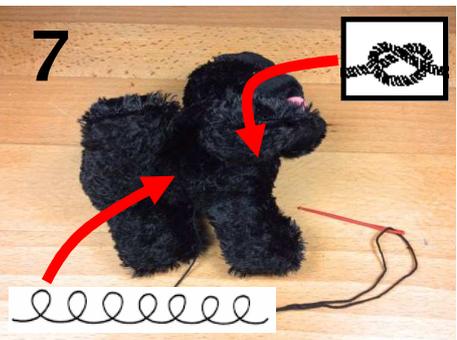

4 Carry on stuffing until all the balls of stuffing are inside - it looks like they will never fit but they do!

5 Cut a 30cm length of thread and thread it onto the plastic needle in this kit.

6 Sew a loop of thread at one end of the slot and tie it firmly with a double knot.

7 Sew the sides of the slot together and then tie another loop and knot at the end. Cut off the thread ends.

8 Your cute puppy dog is finished!

9 Now it's time to make a bandana for your puppy. Use the red spotty cloth in the kit.

Fold the cloth in half to form a triangle.

Now roll the long edge up like this...

Finally turn over the bandana.

Tie the bandana around the neck of your puppy. You can tie it with the point at the back...

...or at the front.

Your puppy will love playing with his squeaky toy bone!

Your cute puppy will love to travel with you wherever you go. Use the tin as a bed and don't forget to take his bone with you...
